

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) ~~Machine~~ A machine for transfer pattern printing of a textile web-(7), said machine comprising a ~~centre-center~~ roller-(1), at least one pressure roller-(2), a tension roller-(3), a reversing roller (4)-and an endless belt-(5), which is of a width substantially corresponding to ~~the~~ a length of the pressure roller (2)-and which extends about the tension roller (3)-and the reversing roller-(4), and where a first portion (8)-of ~~the~~ a periphery of said pressure roller (2)-abuts and exerts a pressure on said ~~centre-center~~ roller (1) with ~~the~~ a result that a pre-printed pattern-carrying web-(6) and the textile web-(7) are subjected to a local compression because said ~~preprinted~~ pre-printed pattern-carrying web and said textile web are in contact with one another and pass between said ~~centre-center~~ roller-(1) and said pressure roller-(2), ~~characterised in that~~ wherein the endless belt (5)-is guided around a second portion (9)-of the periphery of the pressure roller-(2), said second portion (9)-being positioned substantially diametrically opposite the first portion (8)-of said periphery of the pressure roller-(2), whereby the pressure exerted by the pressure roller (2)-on the ~~centre-center~~ roller (1)-is adjustable by an adjustment of ~~the~~ a tension in the endless belt (5)-by means of the tension roller-(3).

2. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein the endless belt-(5) is guided around a substantial portion of ~~the~~ a periphery of the ~~centre-center~~ roller (1)-and through ~~the~~ a nip between the pressure roller-(2) and said ~~centre-center~~ roller-(1).

3. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein the endless belt (5)-is made of a waterproof, essentially non-stretchable material.

4. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein the endless belt (5) is made of an ~~aramide fibre~~ aramide-fiber reinforced rubber blanket.

5. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein the machine comprises two pressure rollers (2).

6. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein one or more of the rollers (1, 2, 3, 4), preferably the reversing roller (4), comprise(s) a convex surface.

7. (Currently Amended) ~~Machine~~ The machine as claimed in claim 1, ~~characterised in that~~ wherein the reversing roller (3) is driving.

8. (New) The machine as claimed in claim 6, wherein the reversing roller comprises the convex surface.
